MATIXGO

THE RANGE THAT MEETS ALL THE NEEDS

MatixGO is designed to create an integrated programme that is versatile and functional, easy and smart, sustainable and universal. It is a crescendo of innovation, the result of which is a set of integrated devices that respond to every system need, capable of allowing you to work in an agile manner and save time.

MatixGO, has won this prestigious international award confirming BTicino's ability to combine technology and design.

■ UNIVERSAL

In the home, outdoors, in the office, in the hospital, in the shop or warehouse. MatixGO is the perfect solution for every environment.

■ SIMPLE

Basic elements and accessories to improve and enhance the functional characteristics of products based on personal requirements. Devices optimised to suit multiple fields of use.

■ SUSTAINABLE

Program that follows a Green Vision. CO2 reduction (-24%).
Products made from recycled components (27%).
Paper and cardboard packaging, sustainably sourced and 100% recyclable, ensuring weight and volume reduction.
New 100% bio cover plate.
Environmentally sustainable production processes (eco-friendly glues, halogen free).

■ FLEXIBLE

New approach when it comes to accessories, to transform or extend the installation with simple solutions in order to meet the needs of the user. (e.g. IP55 cover, anti-removal accessory, wireless controls).

■ SMART

A smart system that can follow changing needs, allowing easy evolution with smart products, in both functional and performance terms.

FOR EVERYONE AND EVERYWHERE

RESIDENTIAL

White 3-module cover plate with backlit control and P40 flat socket, for a residential environment where finish, style and design are a must.

OUTDOOR

Wireless smart control even outdoors thanks to the IP55 protection degree.

OFFICES

Grey desk pop-up and black cover plate with power sockets and USB chargers for charging technology devices

HOTELS

MatixGO stands for maximum installation flexibility, providing a solution for every need and application. Its features are perfectly suited to every environment, from residential to service, from indoor to outdoor, from hotel to healthcare establishments.

CELLARS

IP40 surface mounting boxes with IP55 waterproof covers for all those situations where installations with high protection levels are required.

WORKSHOPS

HOSPITALS

Touchless control for all healthcare and community environments

SHOPPING CENTRES

Black cover plate with anti-removal accessory and IR sensor for installation in high-traffic environments: shopping centres, petrol stations, sports facilities.

SIMPLE

MatixGO is fast and simple: do more with less.
Optimisation and reduction of the number of catalogue items to improve installation performance.

SURFACE

EASY AND SMART: SAVE TIME.

New offering of protected covers and housings: best-in-class performance without additional components.

IT'S FLEXIBLE: COMBINE IT ACCORDING TO YOUR NEEDS.

The IP40 boxes can easily be placed side-by-side or stacked, allowing the system to be expanded at a later date.

FLOOR TURRETS

DESIGNED FOR MAXIMUM EXPANSION.

It allows for easy expansion of functions, thanks to the possibility of combining the turrets both vertically and horizontally, in order to meet all expected office requirements.

SIMPLE

MatixGO features countless innovations, making your work easier and meeting all application requirements.

SUPPORT

**UNIQUE AND INNOVATIVE:
EASY AND SIMPLE TO USE**

- perfect installation in all kinds of situations
- functional for both new installations and renovations: it adapts to every type of box on the market
- more combinations thanks to the half module that allows the use of 1, 2 or 3 module cover plates on the same support.

Quick and simple centring.

Always flush with the wall in all kinds of installations.

Screws can be easily inserted/removed without tools.

FUNCTIONS

TECHNOLOGICAL INNOVATION APPLIED TO PRODUCTS: DEVICES THAT PERFORM MORE FUNCTIONS AND PROVIDE MORE TIMELY RESPONSES TO CUSTOMER NEEDS

- integration of Pass&Seymour functions without adapter
- vertical support: it allows the installation of IR functions, placing them in a vertical position
- step light: switches on when prompted by the motion sensor
- LED backlight available on request on all switches.

Installation of IR functions in a vertical position

Dedicated cover plates for integration of Pass&Seymour functions without adapters

FLEXIBLE

MatixGO is the new series that allows you to do it all: new installations or updates of existing ones are even easier than expected. No need to dismantle or redo: simply add accessories or dedicated products to transform the installation quickly and easily, saving time.

IP55 WITH THE SIMPLE ADDITION OF A COVER

The cover is simply fitted manually without tools on the IP40 box, turning it into an IP55 waterproof box

- High resistance to all weather conditions
- Transparent flexible membrane to operate the controls even when closed
- It can be opened to connect the plug
- Once fitted, the cover can only be removed with a tool
- The cover can be adjusted in all directions

SAFE

Add it, even at a later date, without need for rewiring: the cover plate can no longer be removed manually.

Anti-removal
accessory fitted

ANTI-REMOVAL ACCESSORY

Anti-removal
accessory

SMART

EXPAND YOUR SYSTEM WITH THE NEW WIRELESS CONNECTED IP55 CONTROL

Add it and place it
anywhere, even outdoors,
at any time as required.

SUSTAINABLE

**MatixGO is environmentally friendly,
from design to disposal:
an environmentally sustainable concept.**

In search of the most environmentally friendly material: "I'm nature", a 100% bio plate made of compostable material.

The entire programme is based on a Green vision involving processes, technologies, product weight, materials and packaging.

FULLY RECYCLABLE PAPER AND CARDBOARD PACKAGING

- the packaging is plastic-free: 100% paper and cardboard
- reduced packaging weight and optimised volume to reduce the carbon footprint: rigid cardboard is used on all the box internal sections, as well as smaller packaging, to reduce the number of pallets needed for shipping.

RECYCLING

ENVIRONMENTALLY FRIENDLY MATERIAL

- Recycled plastic (27%) for the manufacture of all MatixGO products
- Materials made with In-Mold Decoration technology

HALOGEN-FREE

Free of elements such as bromine, fluorine, iodine or chlorine, to ensure safety even in the event of fire, preventing the release of dangerous toxic and corrosive gases into the environment.

-24% CO₂ EMISSIONS

MatixGO was conceived following green principles (for example, the decision to manufacture most of its products from recycled material) that allow a 24% CO₂ reduction compared to conventional products.

THE STYLE

**Delicate minimalism
with a distinctive finish.**

The style emphasizes BTicino's DNA.
A shape with a precise and gentle design but with a
dynamic language.
The side view enhances its distinctive character by
highlighting a characteristic undercut that creates
separation from the wall.

White is universal and suitable for all environments. Glossy and shiny surface.

A MODERN LANGUAGE AND FINISH

A characteristic undercut that creates separation between the top and the side of the product.

Defined curve and sharp edges for increased dynamism and a sturdier product.

Optional white or blue LED light for all three alternatives.

Grey and black, more suitable for distinctive environments. Satin finish surface for a velvety effect to the touch. In line with current interior design trends.

WHITE

WHITE - JW

Glossy white:
minimalism - warmth - comfort.
Ethereal charm, delicate tones
and authentic finishes convey
the essence of good design
with grace and restraint.

IVORY - TI

RITUAL - TR

SAND - TS

CARRARA - EM

MATERIAL:
TECHNO POLYMER

ALUMINUM - AA

PEARL - AP

MATERIAL:

BIO - BB

MATERIAL:
NATURAL BIO-POLYMER

GREY

GREY - JG

Matt grey:
new - distinguishing - versatile.
Cool colours and metallic finishes
in line with the new trends give
every room a new personal touch.

ALUMINUM - EA

STEEL - ES

AGAVE - TA

TORTORA - TD

MATERIAL:
TECHNO POLYMER
AND ALUMINUM

BLACK

BLACK - JB

Matt black:
dark, details, style.
Silky surfaces not only to
the eye but also to the touch,
and metallic effects for delightful
contrasts.

COFFEE - TC

BLUE - TB

BLACK NICKEL - EN

STEEL - AT

MATERIAL:
TECHNO POLYMER
AND ALUMINUM

OFFICE

Ideal for co-working
and home-office
spaces

With its new floor, desk
and perimeter solutions,
MatixGO meets all the
functional user requirements.

Desktop multi-outlet extensions

Extremely versatile solutions, capable
of meeting the most diverse connection
needs, whether for a meeting room or an
individual workstation.

Concealed turrets and underfloor boxes

Concealed turrets with
8 to 30 module capacity
for floating floor
installation

New turrets for traditional and floating floors

Protruding turrets with
4 to 8 module capacity
that can be expanded
horizontally and vertically

Desk flush-mounted pop-ups

Solutions particularly
suited to offices
and meeting rooms

HOSPITAL

ANTI BACTERIAL A complete range of antibacterial devices

Capable of meeting the installation needs of many different situations of the healthcare sector, MatixGO expands its offering with a rich and comprehensive range perfect for hospitals, clinics, nursing homes, in-patient facilities and medical environments, enhancing well-being and patient's safety, and making the work of medical and paramedical staff easier.

Emergency call

Simple and comprehensive emergency call management system

Door lamp

LED signalling lamp outside the door

Devices with antibacterial properties

Antibacterial devices and cover plates to meet all plant engineering needs in environments where high levels of hygiene are required

Touchless control

Touchless devices for opening doors and switching lights on and off

SMART ELECTRIC SYSTEM

MONITORING THE HOME IS EVEN EASIER.

A single Home+Control App to manage lights, shutter, energy and temperature. The function may also be easily monitored using voice controls sent through the Apple Siri, Google Home and Amazon Alexa voice assistants.

Home + Control App

GENERAL CONTROL

With one single click, this device will allow you to switch off all the lights and lower all the shutters when you leave your home, or to activate your favourite scenario.

CONTROL WITH SMARTPHONE

From your smartphone, you will be able to view and check the status of lights, shutters and connected power sockets from anywhere using the Home+Control App.

VOICE CONTROL

You can control your system with your voice thanks to your favourite voice assistant.

MANAGEMENT OF THE TEMPERATURE

Remotely check and manage the temperature inside your home using your smartphone and the new Smarter connected thermostat.

LIGHTING AT THE DESIRED LEVEL

Adjust the light level for optimum personal comfort. You can do that from the connected Dimmer, the associated wireless controls and the Smartphone, using the Home+Control App.

WIRELESS CONTROL

You can add wireless controls (lights, shutters and sockets), or reposition them at any time depending on your needs.

IP55 WIRELESS CONTROL

The IP55 wireless control does not require batteries and is ideal for adding an outdoor control (for example to open the gate from the driveway) without wiring.

ENERGY CONSUMPTION CONTROL

Check the electricity consumption of your household appliances and the consumption history (daily, monthly, yearly) from your smartphone. In overload conditions, the system disconnects the least important load to avoid tripping of the meter (blackout).

SCHEDULE

Program the activation of lights, shutters and loads connected to sockets based on your needs.

Some examples:

- automatically switch on the garden lights at sunset and switch them off at sunrise;
- switch on some lights and activate some shutters to simulate the presence of someone in the house when on holidays.

LEDs for rocker controls

LED color	230 Va.c.	12/24 Va.c.	127 Va.c.
White	LN4742V230T	LN4742V12T	LN4742V127T
Blue	LN4742V230B		LN4742V127B

LEDs for axial controls

LED color	230 Va.c.	12/24 Va.c.	127 Va.c.
White	LN4743/230T	LN4743/12T	LN4743/127T
Blue	H4743/230B	H4743/12B	H4743/127B

Note: blue LED can be used to make traditional devices chromatically uniform to smart devices, which are equipped with a blue LED non-replaceable.

LED insertion

Examples of led connection on a switch

Function: locating

Function: load status LED

Control backlighting led connection

Note for the connection of 230 V.a.c. LEDs for the backlighting of control devices: when LEDs are fitted to help locate the control itself, it must be taken into account that energy saving and fluorescent lamps do not allow in series connection of the LED on the load. It is therefore necessary to also take a neutral conductor near the control, so that the LED may be connected directly between phase and neutral, and will always be on.

* This control can be installed vertically using the J4719V support.

Emergency call system

Designed to meet the most stringent care requirements, simple and intuitive.

Made with relay devices, integrating local call request and reset terminals and visual-acoustic signalling devices.

The user only needs to use the bathroom pull cord to make the emergency call and the relay will immediately activate the visual and acoustic signals. When going to the room originating the call, the assistant can reset and silence the system using the pushbutton in the room itself, or any silencing pushbuttons connected in parallel.

Fast charging protocols will become the standard

QUICK CHARGE 3.0
It enables optimal power transfer maximizing the efficiency.

POWER DELIVERY
It is the specific protocol for managing higher powers.

NOTE: Quick Charge and Power Delivery are AVAILABLE on Type C single port chargers.

Item		Bulkhead light indicator unit
◻ J4387V12		Power supply 12/24 Va.c./c.c. - red, green, blue, white colour. Antibacterial. 2 modules
◻ J4387V230		Power supply 127/230 Va.c. - red, green, blue, white colour. Antibacterial. 2 modules
◻ J4370V12		Flush light indicator unit Power supply 12/24 Va.c./c.c. - red, green, blue, white colour. Antibacterial. 2 modules
◻ J4370V230		Power supply 127/230 Va.c. - red, green, blue, white colour. Antibacterial. 2 modules
◻ JW4362 ◻ JG4362 ■ JB4362		Lighting Reading lamp dimmable - installing the head of the bed allowing you to have a directional light. It is equipped with a flexible arm (length 31 cm) that allows you to orient the illuminating ends. The light intensity can be dimmed by pressing and holding the On / Off integrated command. It can also be connected to a remote control and, if necessary, you can disable the built-in command with a 30 sec pressure - LED light - Consumption 3 W - Luminous Flux 110 lumens (equivalent to 15 W incandescent) - Duration 40.000 hours - 1 module (recessed)
◻ JW4382 ◻ JG4382 ■ JB4382		Step marker light with white light LED and switch - 230 Va.c. - 2 modules
◻ JW4382IR ◻ JG4382IR ■ JB4382IR		Step marker light + IR sensor, with white light LED and ON-OFF switch - 230 Va.c. 0,5 W - 2 modules*

Item		Lighting
○ J4380		Removable and rechargeable torch with automatic ignition device. It turns on automatically in case of power failure - push & pull the extraction system (press and pull) complete with recharging base - white light LEDs with high luminous efficiency - ON / OFF switch and SPOT button to increase the brightness when needed - interchangeable batteries Ni-MH battery without memory effect - Autonomy of 2 hours - low consumption in stand-by 0.4 W - Power 230 Va.c. - 2 modules
○ 4380NB		Spare battery for removable led lamp
○ J4381		LED safety lamp with automatic operation when there is a power cut. 230 Va.c. 50/60 Hz - power consumption 2.5 VA (0.1 W) - rechargeable non-replaceable NiMH 3.6 V 140 mAh battery - complete charge in 48 hours - life 2 hours - maximum cable section 1 x 1.5 mm² - light intensity 2400 mcd - angle of emission 120° - not pull-out - 1 module
○ J4383		Emergency LED light with automatic activation in case of power cut. LED voltage presence signaling. Rechargeable and replaceable Lithium LiFePO4 3,2 V 1,5 Ah battery. Preset autonomy of 1 hour (98 lumen) can be set to 3 hours (70 lumens) via special jumper. Complete charge in 24 hours. Power supply 230 Va.c., power consumption 1.8 W - monoblock stand alone - 3 modules

* This control can be installed vertically using the J4719V support.

■ Bulkhead light indicator for off-door signalling and lamp holders

ONE PRODUCT FOR FOUR DIFFERENT COLOURS

Choose the product according to the operating voltage and set it with the light colour you need.

Example with lamp holder item J4370V230 or item J4370V12

■ Wiring diagram

J4370V230 and J4387V230

Note: for 12/24 V powered versions use a suitable transformer

wired controls for light

Item	Connected devices for light
<input type="checkbox"/> JW4003C <input type="checkbox"/> JG4003C <input checked="" type="checkbox"/> JB4003C	 <p>Connected 2-ways switch. It allows to control lights locally or remotely. The connected 2ways switch has the same installation and usability of a traditional 2ways switch and it is compatible with all loads with max pover 250 W. It s equipped with a blue LED light used always on for localization modality or on, when the light is on for the load status modality. It can be associated with "wireless light switches". Caution: Must be connected to the neutral. Power supply 110-230 Va.c. - 1 module</p>
○ 3584C	<p>Connected lighting micromodule. It allows to control lights locally or remotely. It is compatible with all loads with max pover 300 W. It can be connected to one or more traditional push-button or associated with "wireless light switches". It is installed as a traditional rele in the box (behind the button) or in derivation boxes. Caution: Must be connected to the neutral. Power supply 110-230 Va.c. - white - 1 module</p>
○ FC80RC	<p>DIN switchboard light device for loads with absorption In= 16 A. Equipped with a meter measuring the current absorbed by the load and contacts for control with up to 10 pushbuttons. Power supply 110-230 Va.c. - 1 DIN module - white</p>

Note: for the use of the connected devices, the gateway, item **JW/JG/JB4500CG**, **JW/JG/JB4510C** or **FG80GT** must be installed as part of the system.

If the gateway is connected to the internet through the Wi-Fi network, it will be possible to manage the system from the home using the specific **HOME + CONTROL** App

Item	Connected dimmer
<input type="checkbox"/> JW4411C <input type="checkbox"/> JG4411C <input checked="" type="checkbox"/> JB4411C	 <p>Dimmer/switch. It allows to control lights locally or remotely, with the dimmer functionality that can be activated from APP Home+Control. It has the same installation and usability of a traditional switch and it is compatible with all loads (LED, halogen) with max power 150 W at 230 V (or 75 W at 110 V). It s equipped with a blue LED light used for localization modality or load status modality, configurable by APP. It can be connected to one or more traditional push-button or associated with "wireless light switches". Caution: Must be connected to the neutral. Power supply 110-230 Va.c. - 1 module</p>
<input type="checkbox"/> JW4413CM2 <input type="checkbox"/> JG4413CM2 <input checked="" type="checkbox"/> JB4413CM2	 <p>Switch without neutral, 125 W LED, with dimmer option, wired, 2 modules. For local or remote ON/OFF or dimming control of lighting. Can be controlled by one or several wireless light switches and/or mechanical push-buttons. Dimmer mode and locator and indicator functions can be activated from the Home + Control App. Compatible with all loads: - Dimmable LEDs and CFL lamps: 125 W LED - Incandescent and halogen lamps: 125 W - ELV halogen and CFL lamps with separate ballast: 125 VA Supplied with a bleeder. Memory level function. - 2 modules</p>
○ 4411C	 <p>Connected dimmer micromodule with neutral. Used to connect lights with a ceiling box installation Can be controlled by one or more wireless light switches and/or mechanical push-buttons. Switch with dimmer option, 150 W LED, wired. For local or remote ON/OFF or dimming control of lighting. Dimmer mode can be activated from the Home + Control App. Memory level function. Compatible with all loads: - dimmable LEDs and CFL lamps: 150 W LED - Incandescent and halogen lamps: 150 W - ELV halogen and CFL lamps with separate ballast: 150 VA</p>

connected control for shutters and gate

Item	Connected shutter control
<input type="checkbox"/> JW4027C <input type="checkbox"/> JG4027C <input checked="" type="checkbox"/> JB4027C	 <p>Connected shutter control. It controls a shutter locally or remotely. Compatible with all standard shutter motors (with mechanical or electronic limit switch and maximum power 500 VA), controlled by a wired shutter changeover switch (changeover with the same power supply as the motor). Not compatible with radio controlled or pulse controlled shutter motors. It can be associated to one or more wireless controls. Power supply 100-230 Va.c. - 1 module.</p>
○ 4027C	 <p>Connected micromodule for shutters</p> <p>Connected micromodule for shutters. Associated to one or more shutter wireless controls, it controls a shutter locally or remotely. Compatible with all standard shutter motors (with mechanical or electronic limit switch and maximum power 500 VA), controlled by a wired shutter changeover switch (changeover with the same power supply as the motor). Not compatible with radio controlled or pulse controlled shutter motors. It can be installed in the existing shutter box with no need of masonry works. Power supply 110-230 Va.c.</p>
○ 3586C	 <p>Garage Gate Door Module</p> <p>Enables open/close control of a garage door or gate, locally, remotely or via voice assistant. Status display (open/closed/half open) in the Home + Control app. Can be steered using a wireless shutter control. Can be controlled from the remote control art.3528C. Supplied with 2 wired position sensors and specific fixtures. Can be installed into an IP55 box 80 x 80 mm or larger. Fitted with 2 separable fixing points.</p>

Note: for the use of the connected devices, the gateway, item **JW/JG/JB4500CG**, **JW/JG/JB4510C** or **FG80GT** must be installed as part of the system.

If the gateway is connected to the internet through the Wi-Fi network, it will be possible to manage the system from the home using the specific **HOME + CONTROL** App

Smarter connected thermostat

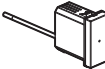

Item	Connected thermostat Smarter with Netatmo
<input type="checkbox"/> XW8002 <input type="checkbox"/> XG8002 <input checked="" type="checkbox"/> XM8002	 <p>The Smarter with Netatmo connected thermostat, together with the dedicated HOME+CONTROL APP, is a device which allows you to adjust and monitor the temperature in the rooms precisely and accurately; all the programming and most of the functions are performed simply and intuitively using the APP. Thanks to its Wi-Fi connection, Smarter with Netatmo can be programmed and controlled remotely; it can also display the temperature and humidity measured in the room. The temperature level can be set locally for manual operation and the Boost mode can be activated. The Boost forces the switching on of the system for a limited time (30, 60 or 90 minutes) independent of the measured and programmed temperature. It's also possible to set a different temperature in each room of the house for the maximum comfort, thanks to its compatibility with Netatmo's smart radiator valves. Smarter with Netatmo can also be controlled with Google, Amazon Alexa and Apple Home Kit voice assistants.</p> <p>Features:</p> <ul style="list-style-type: none"> - 110 ÷ 230 Va.c., 50/60 Hz power supply; - 2 W max absorption; - maximum cable section 1 x 1.5 mm²; - temperature measurement 5 ÷ 40 °C; - temperature set-point 5 ÷ 40 °C, - increase of 0.5 °C; - 1-contact output in switching free of potential 5(2) A. <p>Types of installation:</p> <ul style="list-style-type: none"> - flush mounted, on boxes item 503E or 500 (for item 500 use the wall dowels) - plasterboard, on boxes 2 module e 3 module <p>It is available in three colours: white (XW8002), sand (XM8002) and black (XG8002).</p> <p>features: as ..8002.</p> <p>Installation: on the wall, using screws and dowels suitable for the installation surface (brickwork, plasterboard, tiles etc.). It is only available in white.</p>
<input type="checkbox"/> XW8002W

connected controls for energy management

Item	Connected devices for energy management
<input type="checkbox"/> JW4531C <input type="checkbox"/> JG4531C <input checked="" type="checkbox"/> JB4531C	 <p>Connected socket module - wiring to a power outlet, allows to remotely control appliances and check the consumption (instantaneous, daily, monthly).</p> <p>It is also possible to receive notifications in case of anomalous consumption. The connected socket module is compatible with any device electric and large appliances up to 16 A 3680 W max. (protected against overloads). It is equipped with a LED light lit in blue when it is on. This option can be enabled or disabled in the "Home+Control" app. It can be associated with "wireless light switches". Power supply 110-230 Va.c. - 1 module</p>
○ FC80CC	 <p>Smart DIN contactor suitable for controlling single-phase loads <20 A. The smart contactor allows you to remotely control (ON / OFF) loads such as water heaters, swimming pool pumps, induction plates and charging sockets for electric vehicles, from smartphones with the Home + Control App or via a voice assistant. Equipped with a meter for the current absorbed by the load. Dimensions 1 DIN module.</p>
○ F20T60A	 <p>Smart DIN meter. It allows to measure the electrical energy consumption of the entire single-phase system of the house (instantaneous, daily, monthly) and of the single electrical power lines. It allows the reception of notifications in case of reaching the maximum power foreseen by the contract to avoid annoying black-outs. A toroid is supplied to measure the input current. Power supply 100-240 Va.c. 1 DIN module. (Only for single-phase systems).</p>
○ F40T125A	 <p>Smart DIN meter as F20T60A but for three-phase systems</p>
○ FC80GCS	 <p>Connected DIN load management module for the monitoring of the consumptions of the whole electric system, the powering or disconnection of the loads, and the setting of scenarios with priority or non-priority loads. When the maximum intended power is reached, the non-priority loads are temporarily disconnected to avoid black-outs. A toroid for the current reading is provided. Power supply 110-230 Va.c. - 1 DIN module</p>

Item	Connected devices for energy management
○ FC80AC	 <p>Smart device for controlling and measuring the consumption of equipment fitted with dry contacts. Rating 12V/30 Vd.c. or 230 Va.c. 2A max.</p> <p>Ideal for controlling and measuring heating appliances, wallboxes and electric vehicle charging stations, ventilation systems, irrigation systems and any other device with a control dry contact. Not suitable for shutter automation. A toroid is supplied, for the measurement of the current absorbed by the load, max 80 A. Function management through the Home + Control App, compatible with load management module FC80GCS. 1 DIN module. 100-240 Va.c. power supply 50/60 Hz. Requires a Zigbee gateway.</p>
○ 4141PC	<p>Connected plug&play sockets</p>  <p>Connected plug&play socket - Directly connected to an existing socket, it allows remote control of all the connected electrical appliances. It also monitors the instantaneous, daily and monthly consumption. Compatible with all the devices with power up to 16 A 3680 W (with overload protection). It can be associated to wireless light controls. Power supply 110-230 Va.c. - Shuko standard socket</p>

Note: for the use of the connected devices, the gateway, item **JW/JG/JB4500CG, JW/JG/JB4510C or FG80GT** must be installed as part of the system.

If the gateway is connected to the internet through the Wi-Fi network, it will be possible to manage the system from the home using the specific **HOME + CONTROL** App

wireless controls for light, shutter and IP55

Item	Wireless controls for light
<input type="checkbox"/> JW4003CWI <input type="checkbox"/> JG4003CWI <input checked="" type="checkbox"/> JB4003CWI	 <p>Wireless light switch. It allows the ON / OFF and dimming control of one or more connected devices for the lighting control. It can be installed in any flush-mounted box without any wiring. The battery can be replaced without removing it from the supporting frame. Integrated LED for low battery indication. Powered by battery 3 V type CR2032 (supplied) with an autonomy of 8 years - 1 module</p>
<input type="checkbox"/> JW4003CWG <input type="checkbox"/> JG4003CWG <input checked="" type="checkbox"/> JB4003CWG	 <p>As above. No-Battery - 2 modules</p>
<input type="checkbox"/> JW4003CWDG <input type="checkbox"/> JG4003CWDG <input checked="" type="checkbox"/> JB4003CWDG	 <p>Double wireless light switch. It is equipped with two buttons to control two different connected devices for lights. Each single button can be associated with one or more devices. Surface installation with repositionable stickers (supplied) or onto a flush mounting box. Integrated LED for low battery indication. No-Battery - 2 modules.</p>
<input type="checkbox"/> JW4007CWI <input type="checkbox"/> JG4007CWI <input checked="" type="checkbox"/> JB4007CWI	 <p>Wireless switches for multicolour lighting. Allow to directly control up to 20 Zigbee 3.0 compatible multi-colour lighting (e.g. Ledvance Smart+ Zigbee, Philips Hue...). To be associated with the lighting in the Home + Control App. Allow ON/OFF and dimming control of 3 light moods which have to be preset in the Home +Control App. Supplied with CR2032 3 V long-life battery for power supply. LED function for low battery indication. Not compatible with WiFi lighting. Flush-mounting version - 1 module</p>
○ 28003CWG	 <p>Wireless IP55 light switch. No-Battery</p>
○ 28027CWG	 <p>Wireless IP55 double switch for shutters, gates and garage doors. No-Battery</p>
○ 3577C	 <p>Wireless module for mechanical switch. It allows to change a two-way switch or a traditional pushbutton into a wireless light control for ON/OFF control of one or more devices connected for light control. The small size allows the installation in the flush mounted box. CR2032 type 3V power battery with 8 year expected life supplied (as standard)</p>

Item	Rolling shutter wireless switch
<input type="checkbox"/> JW4027CWI <input type="checkbox"/> JG4027CWI <input checked="" type="checkbox"/> JB4027CWI	 <p>Rolling shutter wireless switch - It allows the control of one or more connected rolling shutter switches. It can be installed in any flush-mounted box without any wiring. The battery can be replaced without removing it from the supporting frame. Integrated LED for low battery indication. Powered by battery 3V type CR2032 (supplied) with an autonomy of 8 years - 1 module. Note: mechanism provided with front covers in white, tech and anthracite color finishes.</p>
<input type="checkbox"/> JW4027CWG <input type="checkbox"/> JG4027CWG <input checked="" type="checkbox"/> JB4027CWG	 <p>As above. No-Battery - 2 modules</p>
○ 3585C	 <p>Wireless motion sensor Wireless motion sensor. It controls one or more devices connected for light control. Infrared detection with angle of 140°. Distance of the adjustable sensor from 2 to 8 m. Switch off delay with 1 to 30 min adjustable delay time and 1 to 1000 lux brightness threshold. Test possible with a 5 sec. delay Recommended assembly height: 2.5 m. Optimum distance between 2 detectors: 6 m. For indoor and outdoor use (IP44). Supplied with 2 1.5 V AA batteries for power supply.</p>

Note: for the use of the connected devices, the gateway, item **JW/JG/JB4500CG, JW/JG/JB4510C** or **FG80GT** must be installed as part of the system.

If the gateway is connected to the internet through the Wi-Fi network, it will be possible to manage the system from the home using the specific **HOME + CONTROL** App

(2) cannot be installed in boxes item 150705 and item 150706

Item	IP66 floor boxes
	Floor boxes for installation in floating and concrete floors. To be equipped with MatixGO functions. IK 09 with the lid closed (resistance to loads 10000N).
150731	4 modules with removable lid. IP66 (when lid is closed). Can be equipped with cable exit accessory item 150734. IP54 (with cable exit accessory item 150734 and plugs inserted into the sockets). Stainless steel finish.
150732	4 modules with hinged lid. Compatible with angled plugs only. IP66 (when lid is closed). Stainless steel finish.
150733	Auto-adjustable backbox for installing IP66 floor box in concrete floors. Supplied with cover. Accepts conduits Ø16, 20, 25 mm. Minimum screed height: 65 mm
150734	Cable exit for removable lid IP66 floor box item 150731. Allows the passage of power cords when the plugs are inserted into the sockets inside the floor box. Compatible with angled plugs only. IP54 (with plugs inserted into the sockets).

MatixGO

floor installation - Floor boxes

The floor boxes are made in accordance with CEI 64-8 and CEI EN 60670-23 standards, and ensure the following protection index:
 IP4X on the perimeter of the cover and between surround plate and floor;
 IP2X by the cover cable outlets;
 IP52 near the fastening between box and floor, by means of seal.
 The above protection index meet the requirements for horizontal connection plugs, and for installation on raised floors for which no washing liquids are required during cleaning.
 The thermoplastic resins used (polycarbonate for the cover, surround plates and supports -
 ABS for the container) have the following resistances to abnormal heat and fire:
 - UL - VO
 - CEI 50-11 - IEC 60695-2-1: 850°C Glow Wire Test.

Wiring of the floor boxes is made easier by cut-outs and systems for quick cable connection. The plastic cable glands supplied as standard provide an IP4x protection index.
 Installation in floating floors requires the simple cutting out of a hole in one of the raised floor panels; 4 fasteners are secured to the bottom of the panel to secure the device to the hole. In concrete floors, the installation of the boxes requires the use of a metal box (item 150561S, 150563S, and 150569S), appropriately connected to the underfloor distribution system.
 The specific device holder support, item 150716, gives the possibility of installing in each housing DIN modular devices with capacity of up to 2 modules. The cover with reversible installation has metal hinges and a controlled spontaneous closing system, as indicated in the CEI 64-8 standard. Opening is made easier by the ergonomic handle.
 The cover is available in 2 stainless steel finishes, with slip prevention incisions, or with recess for customisation and integration with the floor (e.g. carpet, linoleum, etc. with thickness of 4 or 8 mm). Both types of covers have a steel reinforcement plate that ensures a load resistance of up to 3000N.
